

Description

West Fraser offers a range of exciting career opportunities for individuals seeking challenging and rewarding careers. North Central Woodlands Division is currently recruiting for an Operations Supervisor.

Are you a forestry professional who thrives in the field, enjoys leading operations, and wants to make a lasting impact on sustainable forest management?

West Fraser's North Central Woodlands Division is seeking an **Operations Supervisor** to join our team in the beautiful Lesser Slave Lake region of Alberta. This is an opportunity to take ownership of harvesting, road construction, hauling, and silviculture programs while working alongside a team of experienced forestry professionals committed to safety, operational excellence, and environmental stewardship.

Why This Role?

As an Operations Supervisor, you'll play a key role in delivering safe, efficient, and sustainable forest operations across one of Alberta's most productive forest landscapes. You'll work directly with contractors, government agencies, planners, and silviculture teams to ensure operational success while building a rewarding long-term forestry career.

You'll Do:

- Lead and supervise harvesting, road construction, hauling, and related field operations.
- Ensure production, quality, environmental, and legal requirements are achieved safely and cost-effectively.
- Manage contractor relationships and oversee operational performance.
- Coordinate with government officials, planning teams, and silviculture professionals.
- Develop and implement operational plans.
- Support and oversee silviculture projects that contribute to long-term forest sustainability.

You have:

- Registered Professional Forester (RPF) or Registered Professional Forest Technologist (RPFT) designation in Alberta, or eligibility and willingness to obtain designation.
- 2–4 years of forestry operations experience.
- Strong leadership, communication, and relationship-building skills.
- A passion for operational forestry and sustainable forest management.
- Excellent organizational skills and the ability to manage multiple priorities in a dynamic environment.

What We Offer:

- Competitive base salary with an annual bonus opportunity. The typical salary range for this position may vary depending on education and relevant experience.
- Comprehensive benefits: including medical, dental, and vision coverage, pension and saving plans, life, disability, and accident insurance, vacation time, paid holidays and additional benefits to support your well-being.

Your Workplace Location:

Based in **Slave Lake, Alberta**, this position offers an exceptional outdoor lifestyle with access to world-class fishing, hunting, camping, boating, and recreation. The nearby communities of Slave Lake and High Prairie provide the perfect balance of career opportunity, family-friendly living, and access to Alberta's natural beauty.

About Us:

West Fraser offers exciting career paths in trades, operations, professional services, engineering and forestry across more than 50 locations in Canada, the U.S., the U.K. and Europe.

From lumber to engineered wood products, West Fraser delivers high-quality, naturally renewable building materials to the world. In all aspects of our business, we're committed to responsible product sourcing and harvesting practices, backed by globally-recognized forest certifications.

Diversity:

At West Fraser, we strongly believe promoting diversity and inclusion is essential to our success. Our commitment to creating inclusive workplaces is reflected in our core values, and we constantly strive to foster a culture that values and respects every individual's unique background and perspective. By joining us, you will have the opportunity to be a part of a team dedicated to shaping a brighter future by embracing diversity and promoting inclusivity. Join our team at West Fraser and help us build a more diverse and inclusive community.

Sustainability:

West Fraser is fully committed to sustainable forest management as defined in our environmental policy, which is reflected in every aspect of our work. We adopt new technologies and innovations to create exceptional building materials. Wood products are a natural, renewable, recyclable, and environmentally sustainable choice for consumers who prioritize sustainability.
